	Formation of individual assignments		3
2	Lesson №2 (1 day) The methodology of outpatient admission of an outpatient clinic doctor in the provision of planned medical care. Practicing manipulation on a simulated patient and/or on each other (physical examination of the cardiovascular system, respiratory system, abdominal examination, determination of blood glucose levels by express method; peak flowmetry, blood pressure measurement, pulse oximetry)	PT	6
	Completion of individual assignments Registration of medical documentation (sending an emergency notification in case of detection of an infectious or occupational disease, passport of a medical (therapeutic) site).		3
3	Lesson №3-6 (4 days) Mastering practical skills using simulation equipment. Practicing manipulation on a simulator (cardiopulmonary resuscitation in an adult, tracheal intubation, bladder catheterization, emergency delivery, conicotomy, central vein puncture, cricothyrotomy, for pneumothorax). Practicing manipulations on simulators and/or with a simulated patient and/or each other (applying a hemostatic tourniquet; immobilization of the chest, upper and/or lower extremities). Practicing manipulation on a simulator (intramuscular and intravenous administration of drugs).	SM	24
	Completion of individual assignments Registration of medical documentation (disability certificate)		12
4	Lesson №7-18 (12 days) Practical work in the therapeutic department as an assistant to the district physician.	PC	72
	Completion of individual assignments Registration of medical documentation (medical card of a patient receiving medical care on an outpatient basis; coupon of a patient receiving medical care on an outpatient basis)		36

5	Lesson №19-29 (11 days) Practical work in the department of primary specialized health care as an assistant to a specialist doctor.	PC	66
	Completion of individual assignments Registration of medical documentation (prescription for the drug in the provision of primary health care for diseases of the respiratory, cardiovascular, urinary, endocrine systems, diseases of the gastrointestinal tract)		33
6	Lesson №30-35 (6 days) Practical work in the department of medical rehabilitation, emergency department, palliative care department	PC	36
	Completion of individual assignments Registration of medical documentation (sanatorium card, certificate for obtaining a permit for sanatorium treatment, referral for hospitalization, examination, consultation)		18
	10th semester (concentrated practice)		
7	Lesson №36-39 (4 days) Practical work in the department of medical prevention	PC	24
	Completion of individual assignments Registration of medical documentation (control card of dispensary supervision, record card of preventive medical examination)		12
	Total by thematic blocks		351
	Preparation of accounting documentation on practice. Intermediate certification (credit with assessment)		9
Total			360

¹ – topic

² – essential content

³ – PT (practical training), SM (simulation modules), PC (patient care)

⁴ – one thematic block includes several classes conducted in the form of practical training, the duration of one lesson is 45 minutes with a break between classes of at least 5 minutes, the duration of one thematic block is 1 day

Approved at the meeting of the Department of Outpatient and emergency medical care, Minutes №12 dated May 30, 2026

Head of the Department

M.V.Derevyanchenko
