**ORDER**  
conducting intermediate certification of students  
at the Department of Children's Diseases  
Federal State Budgetary Educational Institution of Higher Education VolgSMU  
of the Ministry of Health of the Russian Federation  
in the 2025-2026 academic year

### 1. General provisions

1.1. This Procedure for conducting intermediate certification of students at the Department of Children's Diseases of the Volga State Medical University of the Ministry of Health of the Russian Federation in the summer test and examination session of the 2025-2026 academic year (hereinafter referred to as the Procedure, IC) was developed in order to regulate the conduct of intermediate certification in higher education (specialty) educational programs at the Department of Children's Diseases of the Volga State Medical University of the Ministry of Health of the Russian Federation in the 2025-2026 academic year.

1.2. The procedure clarifies and details the requirements of the Regulations for conducting intermediate certification of students in the Volga State Medical University of the Ministry of Health of the Russian Federation in its current version regarding organizational issues of the IC, taking into account the cathedral specifics and features of the implemented disciplines/practices.

1.3. The procedure is brought to the attention of students no later than 1 month before the start of the IC by posting these documents on the cathedral page of the site.

1.4. The Procedure comes into force instead of the previous version of a similar document and is valid for the 2025-2026 academic year.

### 2. Organizational issues of the IC

2.1. The date of the IC in specific disciplines implemented at the department is determined by the schedule of the test and examination session approved by the order of the Vice-rector for Educational Activities. The time of the IC is determined by the IC schedule approved by the head of the Department.

2.2. The order of the IC, the cathedral schedule of the IC, is brought to the attention of students by placing the specified documents on the cathedral page of the site, students are familiarized with the documents at least 1 month before the start of the IC.

2.3. The grade for the IC in points according to the 100-point system, as well as the final grade for the discipline (according to the 5-point system for the exam, credit with an assessment; according to the system "credited", "not credited" for the credit) are brought to the student upon the fact of his oral answer or upon verification of the written answer performed by him tasks within the specified time frame.

2.4. The final assessment in the discipline is entered in the student's credit book, the credit and examination list and the electronic information and educational environment of the Volga State Medical University of the Ministry of Health of the Russian Federation. However, for grades based on the 5-point system, only the verbal equivalent of the grade ("excellent", "good", "satisfactory", "unsatisfactory") is entered, and not the numerical values of the points.(5, 4, 3, 2).

2.5. Based on the results of the IC, the student has the right to appeal.

2.6. Students who have not passed the IC are assigned a re-certification, according to local acts of the Volga State Medical University of the Ministry of Health of the Russian Federation and the approved schedule of retakes.

### 3. Procedure for conducting a full-time IC

3.1. The Department of Children's Diseases conducts IC in full-time format in the following disciplines:

EP	name of the Discipline	name IC form (credit, credit with assessment, exam)	IC semester (Autumn/Spring)
Dentistry	Pediatrics	credit	Spring
Medical and preventive care	Pediatrics	credit	Spring

3.2. Credit in the discipline "Pediatrics" for students of the EP specialty Dentistry, orientation (profile) Dentistry is conducted in person, in the form of an interview for questions. At the same time, the student selects a question on paper on a first-come, first-served basis, and draws up a plan-summary of the answer on paper, followed by an oral answer to the examiner. The total preparation and answer time is up to 30 minutes.

Credit in the discipline "Pediatrics" for students of the EP specialty Medical and preventive care, orientation (profile) Medical and preventive work is carried out in person, in the form of an interview on questions. At the same time, the student selects a question on paper on a first-come, first-served basis, and draws up a plan-summary of the answer on paper, followed by an oral answer to the examiner. The total preparation and answer time is up to 30 minutes.

3.3. In case of establishing restrictive measures in case of unfavorable sanitary and epidemiological situation, the IC in full-time format is carried out in compliance with the following sanitary and hygienic requirements:

- carrying out cleaning of premises with the use of disinfectants according to the virus mode before receiving IC, including the washing of all contact surfaces in public areas (door handles, switches, handrails, handrails, table surfaces, etc.); if the duration of IC is more than 4 hours – repeated washing of contact surfaces;

- providing indoor air exchange by airing;

- providing conditions for hygienic hand treatment with antiseptic agents in the lobby at the entrance to the building where IC is conducted, in sanitary units, as well as ensuring the constant availability of hand washing products, antiseptic hand products in bathrooms;

- obligatory thermometry in a non-contact way at the entrance to the department where IC takes place;

- non-admission to the IC of persons with an elevated body temperature (above 37<sup>0</sup>C) and signs of acute respiratory viral infections (cough, rhinorrhea, sneezing, etc.). In this case, the student is given a failure to appear for a valid reason (which is made a corresponding entry in the IC's statement) and the terms of his IC are postponed to another time during the test and examination period. sessions, and information about the new dates of the IC is brought to the student's attention no later than 3 business days before its start;

- prevention of congestion of students (including in halls and corridors before the start of the IC), control of compliance with social distance, including when seating in the classroom for the IC;

- the presence of properly worn personal respiratory protection equipment on all IC participants (students, teachers, support staff);

- organization of centralized collection of used disposable masks after receiving IC with their packaging in plastic bags before placing them in waste collection containers.
